Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Small and mid-capitalization funds typically carry additional risks, since smaller companies generally have a higher risk of failure, and, historically, their stocks have experienced a greater degree of market volatility than stocks on average.

¹Expense ratios above are as of December 31, 2024, the Fund's prior fiscal year end, as reported in the Fund's current prospectus. Luther King Capital Management has contractually agreed to waive all or a portion of its management fee and/or reimburse the Fund through May 1, 2026 to maintain designated expense ratios.
