Supplement dated September 8, 2021

To the Prospectus and Summary Prospectuses dated May 1, 2021, as previously amended or supplemented

Effective August 31, 2021, Steven R. Purvis, CFA, retired from his position as a portfolio manager for the LKCM Small Cap Equity Fund (“Small Cap Fund”) and the LKCM Small-Mid Cap Equity Fund (“Smid Cap Fund”), and an additional portfolio manager was appointed for each of the Small Cap Fund and the Smid Cap Fund. Accordingly, effective as of September 1, 2021, all references to Mr. Purvis in the Prospectus for the Small Cap Fund, Smid Cap Fund, LKCM Equity Fund, LKCM Balanced Fund, LKCM Fixed Income Fund, and LKCM International Equity Fund (collectively, the “Funds”), and in the Summary Prospectuses for the Small Cap Fund and the Smid Cap Fund, are deleted. In addition, to reflect this and certain other matters, effective as of September 1, 2021, the following changes are made to the Prospectus and Summary Prospectuses, as applicable, of the Funds:

1. On page 1 of the Prospectus and page 2 of the Summary Prospectus for the Small Cap Fund, the third sentence of the first paragraph under the heading “Summary Section–LKCM Small Cap Equity Fund–Principal Investment Strategies” is hereby deleted and replaced with the following:

Smaller companies are those with market capitalizations at the time of investment between \$1.2 billion and \$7 billion.

2. On page 4 of the Prospectus and page 4 of the Summary Prospectus for the Small Cap Fund, the information regarding portfolio managers for the Fund under the heading “Summary Section–LKCM Small Cap Equity Fund–Portfolio Managers” is hereby deleted and replaced with the following:

SUMMARY PROSPECTUS

May 1, 2021

LKCM Equity Fund (LKEQX)

Before you invest, you may want to review the LKCM Equity Fund (the “Fund”) prospectus, which contains more information about the Fund and its risks. The current statutory prospectus and statement of additional information dated May 1, 2021, are incorporated by reference into this Summary Prospectus. You can find the Fund’s prospectus, SAI, reports to shareholders, and other information about the Fund online at www.lkcmfunds.com. You can also get this information at no cost by calling 1-800-688-LKCM or by sending an e-mail request to info@lkcmfunds.com.

As of January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the LKCM Funds’ shareholder reports are no longer sent by mail, unless you specifically request paper copies of the reports from the LKCM Funds (if you hold your Fund shares directly with the LKCM Funds) or from your financial intermediary, such as a broker-dealer or bank (if you hold your Fund shares through a financial intermediary). Instead, the reports are made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you hold your Fund shares directly with the LKCM Funds, you may elect to receive shareholder reports and other communications electronically from the LKCM Funds by calling 1-800-688-LKCM or, if you hold your Fund shares through a financial intermediary, by contacting your financial intermediary.

You may elect to receive all future reports on paper free of charge. If you hold your Fund shares directly with the LKCM Funds, you can inform the LKCM Funds that you wish to continue receiving paper copies of your shareholder reports by calling 1-800-688-LKCM or, if you hold your Fund shares through a financial intermediary, contacting your financial intermediary. Your election to receive reports in paper will apply to all of the LKCM Funds you hold directly with LKCM Funds or all of the funds you hold through your financial intermediary, as applicable.

Investment Objective: The Fund seeks to maximize long-term capital appreciation.

Fees and Expenses of the Fund: The following table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** The Fund does not impose any sales charges in connection with purchases and sales of Fund shares.

Shareholder Fees

(fees paid directly from your investment)

Redemption Fee (as a percentage of the amount redeemed on shares held for less than 30 days)	1.00%
--	-------

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.70%
Distribution and Service (12b-1) Fees	0.00%
Other Expenses	0.28%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%
Total Annual Fund Operating Expenses	0.99%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	-0.18%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ⁽²⁾	0.81%

- (1) Acquired Fund Fees and Expenses are indirect fees and expenses that funds incur from investing in the shares of other investment companies, including money market funds. The Total Annual Fund Operating Expenses and Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement for the Fund differ from the Ratio of Expenses to Average Net Assets before and after expense waiver and/or reimbursement found within the “Financial Highlights” section of the Prospectus because the audited information in the “Financial Highlights” reflects the operating expenses of the Fund and does not include indirect expenses such as Acquired Fund Fees and Expenses.
- (2) Luther King Capital Management Corporation (“Adviser”), the Fund’s investment adviser, has contractually agreed to waive all or a portion of its management fee and/or reimburse the Fund through May 1, 2022 in order to limit the Fund’s Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to 0.80% per annum (excluding any interest, taxes, brokerage commissions, indirect fees and expenses relating to investments in other investment companies, including money market funds (“Acquired Fund Fees and Expenses”), and extraordinary expenses). The fee waiver and expense reimbursement agreement may be terminated or changed only with the consent of the Board of Trustees.

Example

The following example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (except that the example reflects the fee waiver/expense reimbursement arrangement through May 1, 2022). Although your actual costs may be higher or lower, based on these assumptions, whether or not you redeem your shares, your costs would be as follows:

1 Year	3 Years	5 Years	10 Years
\$83	\$297	\$530	\$1,197

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 10% of the average value of its portfolio.

Principal Investment Strategies: The Fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities. The Fund primarily invests in companies that the Adviser believes are likely to have above-average growth in revenue and/or earnings, above-average returns on shareholders’ equity, potential for above-average capital appreciation, and/or companies that the Adviser believes have attractive relative valuations. The Fund may invest in equity securities of small, mid and large capitalization companies, including dividend paying securities. From time to time, in pursuing its investment strategies, the Fund may hold a significant percentage of its investments in specific sectors of the economy.

The Fund seeks to invest in the equity securities of high quality companies, as determined by the Adviser, that typically exhibit certain characteristics, including high profitability levels, strong balance sheet quality, competitive advantages, ability to generate excess cash flows, meaningful management ownership stakes, attractive reinvestment opportunities and/or strong market share positions. These equity securities primarily consist of common stocks, American Depositary Receipts (“ADRs”), and real estate investment trusts (“REITs”).

Principal Risks: The greatest risk of investing in the Fund is that you could lose money. There is no assurance that the Fund will achieve its investment objective. The principal risks of investing in the Fund listed below are presented in alphabetical order and not in order of importance or potential exposure. Among other matters, this presentation is intended to facilitate your ability to find particular risks and make comparisons with those of other funds. Each risk summarized below is considered a “principal risk” of investing in the Fund, regardless of the order in which it appears.

- **Cybersecurity Risk** – Operational risks arising from, among other things, human or processing errors, systems and technology disruptions or failures, or cybersecurity incidents may negatively impact the Fund, its service providers, and third-party fund distribution platforms, as well as the ability of shareholders to transact with the Fund. Cybersecurity incidents may allow unauthorized parties to gain access to or misappropriate Fund assets, shareholder data, or confidential or proprietary information, or cause the Fund or its service providers to suffer data corruption or lose operational functionality. In addition, authorized persons could inadvertently release Fund shareholder data or confidential or proprietary information stored on the Fund’s systems. It is not possible for the Fund or its service providers to identify all of the operational risks that may affect the Fund or to develop processes and controls to completely eliminate or mitigate their occurrence or effects. Portfolio companies in which the Fund invests are also exposed to various risks related to cybersecurity incidents, and the value of the Fund’s investments in such portfolio companies could be adversely impacted in the event any such cybersecurity incidents occur.
- **Dividend Paying Securities Risk** – Securities that pay higher dividends as a group can fall out of favor with the market, causing these companies to underperform companies that do not pay high or any dividends. Also, changes in the dividend policies of companies owned by the Fund and the capital resources available for these companies’ dividend payments may reduce the level of dividend payments and adversely affect the Fund. Securities that pay dividends may be sensitive to changes in interest rates, and as interest rates rise or fall, the prices of such securities may fall.

- *Equity Securities Risk* – The Fund invests in equity securities and therefore is subject to market risks and significant fluctuations in value. Equity securities are generally subordinate to an issuer’s debt in the event of liquidation or bankruptcy. The Fund’s investments in equity securities primarily consist of ADRs, common stocks, and REITs.

ADRs – Investments in ADRs are subject to certain of the risks associated with investing directly in foreign securities, such as currency fluctuations, political and economic instability, capital restrictions, less government regulation, less publicly available information, less liquidity, increased price volatility, and differences in financial reporting standards. ADRs may not accurately track the prices of the underlying foreign securities and their value may change materially at times when the U.S. markets are not open for trading. Investing in such securities may expose the Fund to additional risk.

Common Stock – The value of an issuing company’s common stock may rise or fall as a result of factors affecting the issuing company, other companies in the same industry or sector, or the financial markets overall. Common stock generally is subordinate to preferred stock upon the liquidation or bankruptcy of the issuing company.

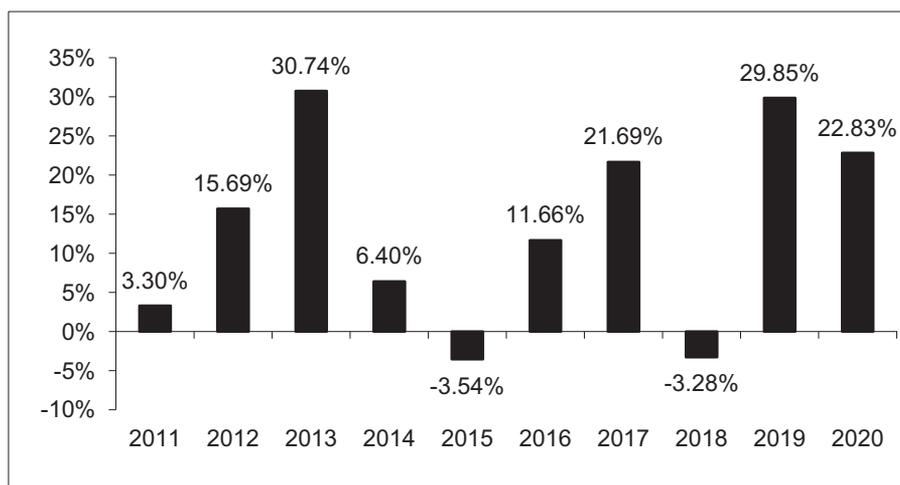

REITs – Investments in REITs are subject to the risks associated with the real estate industry, adverse governmental actions, declines in property and real estate values, risks related to general and local economic conditions, increases in property taxes and operating expenses, overbuilding, changes in interest rates, liabilities resulting from environmental problems, and the potential failure of a REIT to qualify for federal income-tax-free “pass-through” of net income and net realized gains that are distributed to shareholders and exemption from registration as an investment company. REITs are dependent upon specialized management skills and may invest in relatively few properties, a small geographic area or a small number of property types. As a result, investments in REITs may be volatile. REITs are pooled investment vehicles with their own fees and expenses and the Fund will indirectly bear a proportionate share of those fees and expenses when investing in REITs.

- *Foreign Securities Risk* – Non-U.S. investments carry potential risks not associated with domestic investments. Such risks include, but are not limited to: currency exchange rate fluctuations, political and financial instability, less liquidity and greater volatility of foreign investments, lack of uniform accounting, auditing and financing reporting standards, different government regulation and supervision of foreign banks, stock exchanges, brokers and listed companies, and delays in transaction settlement in some foreign markets. There may be very limited oversight of certain foreign banks or securities depositories that hold foreign securities and currency and the laws of certain countries may limit the ability to recover such assets if a foreign bank or depository or their agents goes bankrupt. To the extent the Fund invests a significant portion of its assets in securities of a single country or geographic region at any one time, it is more likely to be affected by events or conditions in that country or region. As a result, it may be more volatile than a more geographically diversified fund.
- *Inflation Risk* – Higher actual or anticipated inflation may have an adverse effect on corporate profits or consumer spending or the financial markets overall and result in lower values for securities held by the Fund.
- *Investment Risk* – An investment in the Fund is not a deposit with a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. When you sell your shares of the Fund, they could be worth less than what you paid for them. Therefore, you may lose money by investing in the Fund.
- *Large Cap Companies Risk* – The securities of large market capitalization companies may underperform other segments of the market because such companies may be less responsive to competitive challenges and opportunities and may be unable to attain or maintain high growth rates during periods of economic expansion.
- *Market Risk* – The Fund is subject to the risk that the securities markets will move down, sometimes rapidly and unpredictably, based on overall economic conditions and other factors, which may negatively affect the Fund’s performance. Factors that affect markets in general, including geopolitical, regulatory, market and economic developments and other developments that impact specific economic sectors, industries, companies and segments of the market, could adversely impact the Fund’s investments and lead to a decline in the value of your investment in the Fund. Geopolitical and other events, including war, terrorism, economic uncertainty, trade disputes, pandemics, public health crises, natural disasters and related events have led, and in the future may continue to lead, to instability in world economies and markets generally and reduced liquidity in equity, credit and fixed-income markets. Events that have led to recent market disruptions and turbulence include the pandemic spread of the novel coronavirus known as COVID-19, the duration and full effects of which are still uncertain. In addition, policy changes by the U.S. Government, the U.S. Federal Reserve and/or foreign governments and political events within the U.S. and abroad may cause increased volatility in financial markets, affect investor and consumer confidence and adversely impact the broader financial markets and economy, perhaps suddenly and to a significant degree. Market disruptions have caused, and may continue to cause, broad changes in market value, negative public perceptions concerning these developments, and adverse investor sentiment or publicity. Changes in value may be temporary or may last for extended periods.
- *Redemption Risk* – The Fund may experience periods of significant redemptions that could cause the Fund to sell assets at inopportune times or at a loss or depressed value. Redemption risk is heightened during periods of declining or illiquid markets. Significant redemptions could hurt the Fund’s performance. The sale of assets to meet redemption requests may require the Fund to realize net capital gains, which could require the Fund to make substantial capital gains distributions to shareholders.

- **Sector Weighting Risk** – The Fund may focus its investments in particular sectors of the economy. To the extent the Fund emphasizes investments in particular sectors of the economy, the Fund will be subject to a greater degree of risks particular to those sectors. Market conditions, interest rates, and economic, regulatory, financial or geopolitical developments could significantly affect securities in particular sectors. Depending on the weightings of the Fund’s investment in particular sectors, the Fund may have increased exposure to price movements of securities in those sectors.
- **Security Selection Risk** – Securities selected by the Fund may not perform as anticipated due to a number of factors impacting the company that issued the securities or its particular industry or sector, such as poor operating or management performance, weak demand for the company’s products or services, the company’s failure to meet earnings or other operating performance expectations, financial leverage or credit deterioration, litigation or regulatory issues, or a decline in the value of the issuer’s business and assets.
- **Small and Mid Cap Companies Risk** – The Fund invests in small and mid capitalization companies that may not have the size, resources and other assets of large capitalization companies. Small and mid capitalization companies may also have narrower commercial markets and more limited operating histories, product lines, and managerial and financial resources than larger, more established companies. Small and mid capitalization companies may be more sensitive to changes in interest rates, borrowing costs and earnings. As a result, the securities of small and mid capitalization companies held by the Fund may be less liquid and subject to greater market risks and fluctuations in value than large capitalization companies or may not correspond to changes in the stock market in general. In general, these risks are greater for small capitalization companies than for mid capitalization companies.

Performance: The bar chart and table that follow illustrate annual Fund returns for periods ended December 31. This information is intended to give you some indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and how the Fund’s average annual returns over time compare with those of an index reflecting a broad measure of market performance and an index of funds with similar investment objectives. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.lkcmfunds.com or by calling the Fund toll-free at 1-800-688-LKCM.

Purchase and Sale of Fund Shares: Investors may purchase, exchange or redeem Fund shares by mail (LKCM Funds, c/o U.S. Bank Global Fund Services, 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53201-0701), or by telephone at 1-800-688-LKCM. Redemptions by telephone are only permitted upon previously receiving appropriate authorization. Transactions normally will only occur on days the New York Stock Exchange is scheduled to be open. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly for information relative to the purchase or sale of Fund shares. The minimum initial amount of investment in the Fund and exchanges into the Fund from another fund in the LKCM Funds is \$2,000. Subsequent investments in the Fund for all types of accounts may be made with a minimum investment of \$1,000.

Tax Information: The Fund's distributions are taxable to you and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case the withdrawal of your investment from the tax-deferred arrangement may be taxable.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a financial adviser), the Fund and its related companies may pay the intermediary for the sale of Fund shares and/or other services. If made, these payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
